Strong international exhibitor participation with premiere of the German joint stand

UGOL ROSII & MINING, NEDRA ROSSII and SAFETY & HEALTH impressively confirm their role as top industry event for the Russian coal industry

From 4 to 7 June 2019, the mining trade fairs provided positive impetus for the industry: around 45.300 trade visitors came to Novokuznetsk to get information about innovations in the fields of coal mining technology, preparation and materials handling (UGOL ROSII & MINING), exploitation, processing and refining of metals and industrial minerals (NEDRA ROSSII) and occupational health and safety for the mining industry (SAFETY & HEALTH).

714 exhibitors from 24 countries presented their products on more than 50.000 square meters of exhibit space, surpassing last year's best figures. This year, the trade fair trio occupied two additional exhibition halls due to increased international exhibitor requests. The additional exhibit space with the new hall layout was well received by exhibitors and trade visitors.

"We are delighted that the 26th edition of UGOL ROSII & MINING, the 5th NEDRA ROSSII and the 10th SAFETY & HEALTH, the leading trade fairs in the industry, have once again exceeded the positive results of the previous year. On the international exhibitor side, we were able to achieve total growth of 25%. The companies used the trade fairs to present their product highlights and technologies to the Russian market. UGOL ROSII & MINING, NEDRA ROSSII and SAFETY & HEALTH thus confirm their role as top industry events for the Russian mining industry", says Peter Schmitz, Director of the trade fair trio at Messe Düsseldorf GmbH.

For the first time, German companies presented themselves at a joint stand sponsored by the Federal Ministry of Economics and Technology (BMWi). This was very well received by both exhibitors and visitors. The 26 exhibitors praised the great visitor interest and the high quality of the contacts. In

addition, international participants from China, Great Britain, Poland and the Czech Republic presented their products and services to the Russian market. Chinese and Turkish exhibitors in particular were increasingly interested in entering the market in the Kemerowo region through the trade fair trio. All major industry players were represented at the trade fairs, underlining their relevance in the markets.

The interest of trade visitors in innovations in the mining sector was also reflected in the concurrently held conferences and workshops. Theme days and an extensive supporting programme provided an ideal platform for exchange between industry representatives and experts.

The trade fair trio was organised by the Messe Düsseldorf Group, Messe Düsseldorf Moscow and their local partner Kuzbass Fair.

The next UGOL ROSII & MINING, NEDRA ROSSII and SAFETY & HEALTH will take place from 2 to 5 June 2020 at the Kuzbass Fair Exhibition Center in Novokuznetsk.
